

### 1<sup>st</sup> error:

When I was inserting the sample data into the tables

I added the primary key and it showed an error because when I have created the tables I made the primary key as an auto-increment

Identity(1,1).

### 2<sup>nd</sup> error:

In query challenge's part:

Trainer Perspective

2. Show upcoming sessions (with dates and time slots)

```
Msg 156, Level 15, State 1, Line 36  
Incorrect syntax near the keyword 'current_date'.
```

```
Completion time: 2025-06-28T15:48:10.2952833+04:00
```

I have used `current_date` and it showed this error for

So I fixed the query and used the function `GETDATE()`
